HANDPACKERS

MOBA

CANDLING AND GRADING ON THE FARM

Moba's low volume Graders. A vital link in the world's egg industry. A large part of the worldwide egg industry depends on Moba's fully automatic, high-capacity grading/packing systems, which process up to 255,000 eggs per hour. However an even important part of the global egg business relies on smaller scale operations. Smaller scale but with similar demands for reliability easy maintenance efficiency and profitability. In this field, too, Moba is the acknowledged leader. Tens of thousands of these hand graders are serving farmers around the globe – many for dozens of years.

Mobanette3

4 or 7 grades, 1,600 eggs per hour. The Mobanette3 needs hardly any maintenance, uses very little power and is easily operated by one person. Just plug it into a wall socket and it is ready to go to work for you.

The tubular lamp gives you a good view of all eggs being candled while you handle infeed and packing. At a weight of just 20.6 kg (45 lbs) the Mobanette3 can be regarded as the egg farmer's most versatile power tool.

Moba68

4 or 7 grades, 3,000 eggs per hour. The Moba68 is tailor made for medium sized farms, because it allows you to switch from one-man operation to two-man operation in seconds. It is just a matter of positioning the candling mirror to the left or to the right of the infeed conveyor. Like all Moba machines, the 68 is simply and extremely solidly constructed in stainless steel, guaranteeing many years of service with a minimum of maintenance. The housing of industrial plastic ensures easy cleaning.

^
Mobanette3

Moba88

4 or 7 grades, 4,500 eggs per hour. High production with just two operators makes the Moba88 a very sound investment indeed. For it retains all the virtues of simplicity and low maintenance requirement that

characterize this entire low volume range. The compact dimensions and low weight make it easy to locate the machine in the most convenient spot. An extra tray table is part of the standard equipment. And this machine is also constructed in stainless steel.

Mobanette3

Dimensions:
853mm (33.7") ↔
965mm (37.8") ↓
Weight: 20,6 kg (45 lbs)
Capacity: 1,600 eggs/hour
Infeed conveyor: single row

Candling: 1x23 Watt PL lamp
1 operator
Grades: 4 or 7
Accuracy: +/- 1 gram
Power: 230Volt 1-phase, 50Hz or 60Hz
(in case of 110 Volt, additional transformer needed)

Moba68

Dimensions:
1755mm (69.2") ↔
1540mm (60.7") ↓
1100mm (43.7") height
Weight: 125 kg (270 lbs)
Capacity: 3,000 eggs/hour
Infeed conveyor: double row

Candling: 2x23 Watt PL lamp+mirror
1 operator
Grades: 4 or 7
Accuracy: +/- 1 gram
Power: 230Volt 1-phase, 50Hz or 60Hz (in case of 110 Volt, additional transformer needed)

Moba88

Dimensions:
1755mm (69.2") ↔
1540mm (60.7") ↓ (ex.accumulator)
1100mm (43.7") height
Weight: 150 kg (325 lbs)
Capacity: 4,500 eggs/hour
Infeed conveyor: double row

Candling: 2x18Watt TL lamp+mirror
1 operator
Grades: 4 or 7
Accuracy: +/- 1 gram
Power: 230Volt 1-phase, 50Hz or 60Hz
(in case of 110 Volt, additional transformer needed)
